

Mary and Her Little Lamb

As Percy eats his honey Mary lectures on bees
How they gather honey and store it in trees

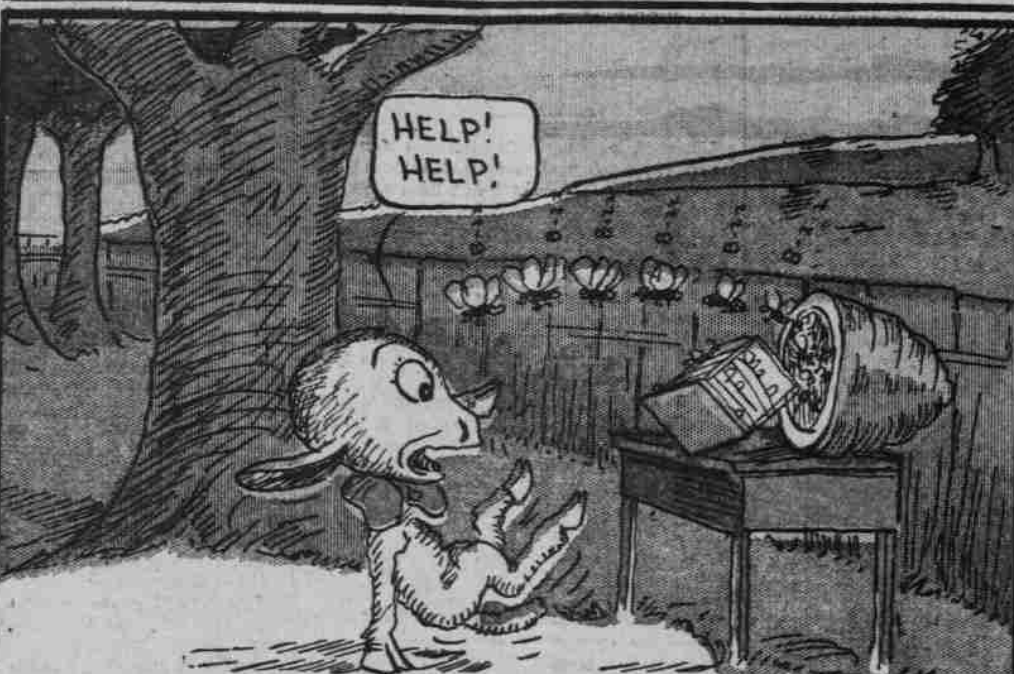

Now Percy is greedy and thinks he'll get more
By tracking a bee when it flies to its store

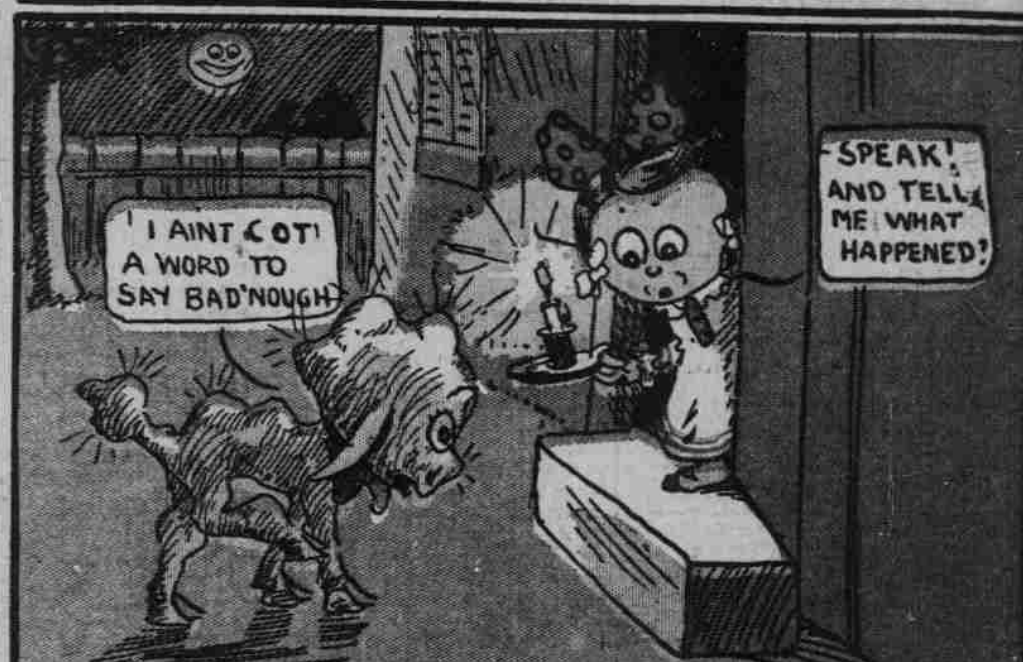

For many long hours he followed the trail
And went leventeen miles over hill top and dale

And just when he weakened mor dead than alive
He saw Mister Bee go right into its hive

And when it departed Percy went for the hive
Not knowing there was a whole family inside

And when he got home it was half after three
And what the bees did you can easily see

SIMON AND MOSES'S NEW DAWG
